

# KALABRONE MAXI

**KALABRONE MAXI** is the new shelf support for free-standing shelves created by Italiana Ferramenta Srl. Boasting a captivating design, it perfectly meets the actual market demands.

It is suitable for wood shelves from 25 to 50mm thick. Its solid structure guarantees a capacity loading of 25 kg for each support with a shelf 320mm deep.

**KALABRONE MAXI** comes with 2 adjustments:

- Vertical: through the oval hole positioned on the upper bracket
- Inclination: through an adjustable screw positioned on the main support

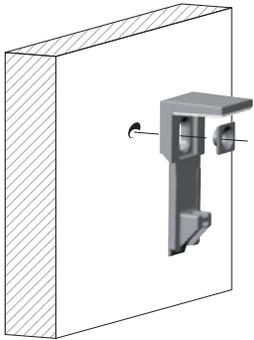

The soft element made of engineering plastic positioned on the upper bracket guarantees a perfect adhesion to the shelf, thus avoiding that the shelf is accidentally removed.

25-50 mm 

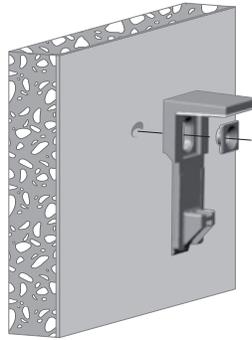

25 kg for each shelf support for shelf 320 mm deep 

REGISTERED DESIGN 

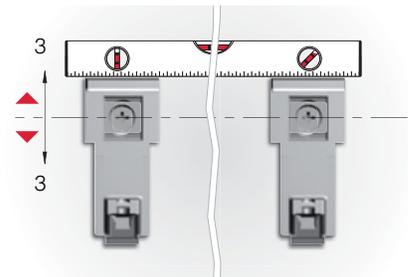

## WOOD PANEL

## SOLID AND PLASTERBOARD WALLS

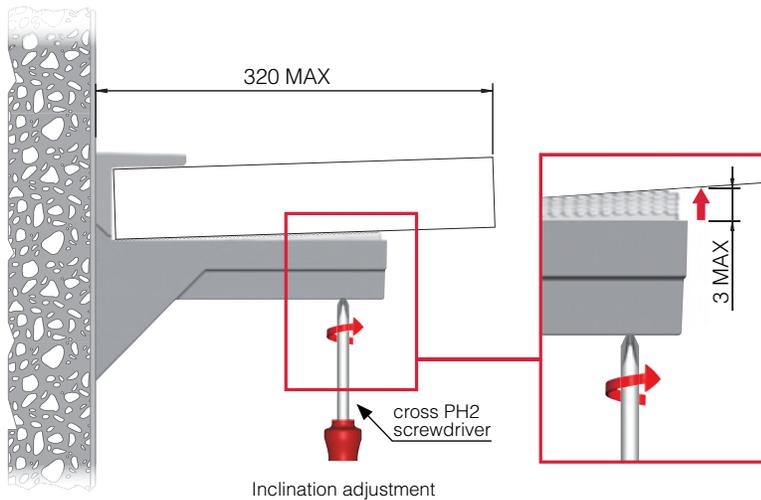

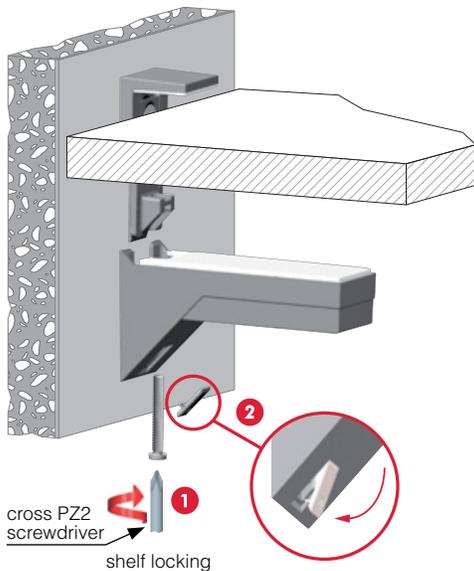

## BRACKET ALIGNMENT

Recommended fixing countersunk screw type - head Ø 5 mm max.

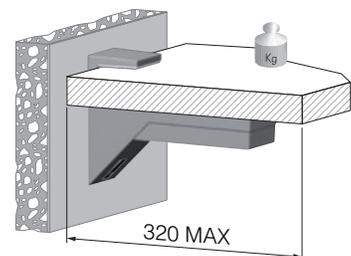

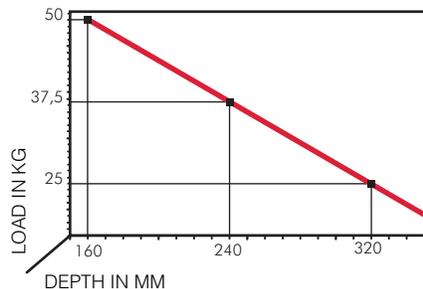

It is the responsibility of the customer:  
 - to ensure that the wall is of a suitable quality to hold the shelf fixing in place.  
 - to use the proper hardware fittings according to the construction of the wall.

## SHELF LOCKING AND INCLINATION ADJUSTMENT

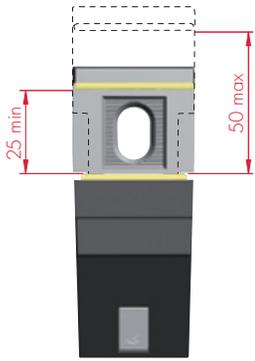

## COMBINATION SHELF LOAD AND SHELF DEPTH

(The figures refer to 1 shelf support)

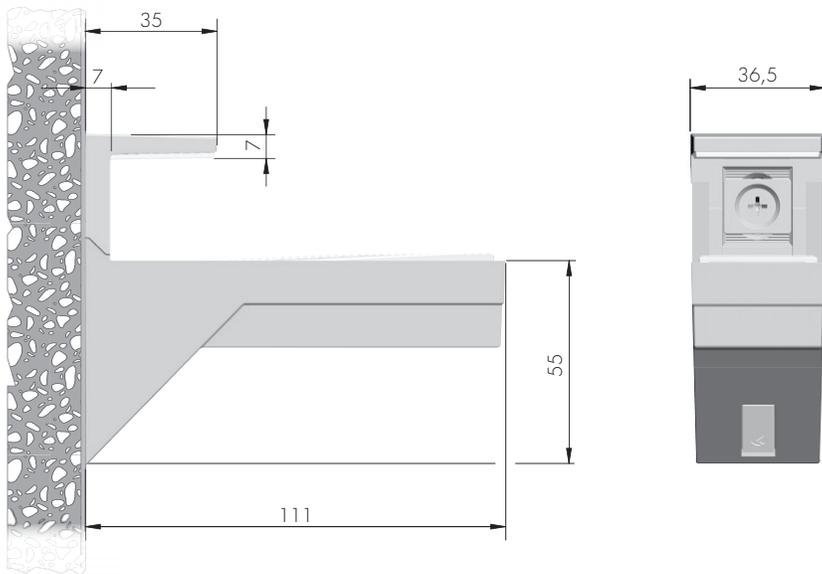

+ shelf weight = 25 kg MAX for each shelf support

**Wood and honeycomb shelves**

Shelf is clamped between a layer of ridged plastic on the lower side and soft rubber on the upper side (coloured parts).
